FACING CANCER WITH CONFIDENCE

Safe Fundraising Guidelines

Our top tips for your fundraising during the coronavirus pandemic, allowing you to help us raise vital funds in a safe, secure way for both yourself and those around you.

We have provided these guidelines for anyone undertaking a fundraising activity in aid of Look Good Feel Better. They outline how to stay safe while fundraising during the current coronavirus pandemic.

Please ensure you have checked and are following all current government guidelines when carrying out your fundraising activity. These Look Good Feel Better Guidelines are to be followed in addition to government regulations. For the latest advice please visit [gov.uk/coronavirus](https://www.gov.uk/coronavirus)

Our recommendations for fundraising

- If you are planning a fundraising activity where you may come into contact with people outside of your household please ensure you follow the current government guidelines on social distancing.
- We do not recommend that you collect cash donations from your supporters and instead use online payment or donation methods such as Justgiving or via the donate button on www.lgfb.co.uk
- Please be sensitive to the anxieties of others during these unprecedented times.
- If you are considering taking on a fundraising challenge or activity please take all relevant safety precautions and we strongly advise you carry out only low risk events and activities.
- If you're holding a raffle, remember to charge a standard price for the ticket and draw the winner on the same day. For anything more complicated or if you are holding a raffle over a longer period of time, you'll need to get more information from your local council's licensing department.
- We encourage you where possible to promote your fundraising activity through digital platforms, and please speak to our fundraising team who can advise you on this.
- Please display LGFB's charity number (1031728) where appropriate and we can provide you with an authorisation letter to prove that you are raising funds for us
